# LRW35

## Motorized Pallet Truck

Easy startup and controlled user access with simple on/off key switch.

Battery discharge Indicator with lift interrupt prevents over-discharging of the battery to protect electrical components.

All controls - lift/lower, travel, and horn-accessible from either side of the handle for left- or right-handed operators.

Onboard charger makes it easy and convenient to charge the truck so it's ready when you are.

### ERGONOMIC

- + Operator comfort with a long, ergonomically designed tiller and easily accessible controls for left- and right-handed users.
- + Control in tight areas with maneuverability at slow speeds with the tiller upright against the truck.

### SERVICEABILITY

- + Uptime with quick, easy, tool-free access to internal components.
- + Easy lifting and servicing with convenient built-in hoist hooks.

### EFFICIENT

- + Lift/lower cutout prevents lifting on a low battery so the unit can be moved to a charging station.
- + Convenient charging with an accessible, always available, self-storing charging cord.

### AFFORDABLE

- + Application flexibility with the perfect combination of high capacity and low cost.
- + Economical ongoing operation with low maintenance requirements and costs.
